Summary

Computer Science student and Junior Data Analyst passionate about turning raw datasets into meaningful, actionable business insights. Experienced in database querying, data modeling, cleaning, and creating dynamic visualizations using SQL, Power BI, Excel, and Python. Seeking to leverage data analysis skills to solve real-world problems and support data-driven decision-making within a collaborative team.

EDUCATION

Bachelor of Science in Computers and Information | Egyptian E-Learning University (EELU) *Expected Graduation: 2029* | Cumulative GPA: **3.44 / 4.00**

SKILLS

Technical Skills

- **Data Analysis:** SQL, Python (Pandas, NumPy), Advanced Excel (Power Query, Pivot Table).
- **Business Intelligence:** Power BI, Interactive Dashboards, Data Modeling.
- **Programming & Tools:** Java, OOP, HTML5, CSS3.
- **Data Preparation:** Data Cleaning, ETL Basics, KPI Reporting.

Soft Skills

- Data Storytelling.
- Analytical & Critical Thinking.
- Attention to Detail.
- Business Problem Solving.

PROJECTS

Retail Sales & Profitability Dashboard | *Advanced Excel, Pivot Tables, Power Query*

- Extracted, cleaned, and transformed transactional retail sales data using **Power Query** to handle missing values and standardize records.
- Built dynamic **Pivot Tables** and interactive dashboards to track key performance metrics including total revenue, profit margins, and sales trends.
- Implemented interactive slicers and KPI scorecards to analyze product performance across regions, facilitating data-driven decision-making.

Personal Portfolio Website | *HTML5, CSS3, JavaScript, Git/GitHub*

- Designed and developed a responsive personal portfolio website to showcase technical projects, data analysis skills, and professional experience.
- Structured modern semantic **HTML5** layouts and styled responsive user interfaces using custom **CSS3** media queries.
- Hosted and deployed the website on **GitHub Pages**, ensuring clean code organization and cross-browser compatibility.

Glossy Touch Web Application | *HTML5, CSS3, Web Development*

- Developed an interactive front-end web project for the **Glossy Touch** brand with a visually appealing, user-centric interface.
- Optimized page layout and navigational components using structured **HTML5** and modern **CSS3** styling techniques.
- Ensured mobile responsiveness, fast loading performance, and intuitive user experience across different screen sizes.

COURSES & CERTIFICATES

- **Data Fundamentals** | IBM SkillsBuild.
- **AI Literacy** | AI Empower Yourself (MCIT, Microsoft & Fast Lane).
- **AI Fundamentals** | IBM SkillsBuild.
- **Front-End Web Development (HTML5, CSS3, JavaScript)** | Mahara-Tech (ITI).
